PROFILE SUMMARY

An web developer with hands-on experience in Angular 19, REST API integration, and Python. B.Tech graduate (ECE, CGPA 8.69) who transitioned into software development through internships at Cognizant and MP Online (TCS JV), where I contributed to live citizen-services portals. Seeking a software engineering role where I can build scalable, user-facing applications.

EXPERIENCE

Software Development Intern – MP Online – Joint Venture with TCS Oct 2025 – Mar 2026

- Collaborated in building and integrating REST APIs for a citizen-services portal, contributing to key modules that served thousands of users across Madhya Pradesh. Developed responsive UI components in Angular 19, collaborating in a team of 6 developers.
- Participated in code reviews, sprint planning, and deployment cycles — gaining end-to-end exposure to a production software environment.

Analyst Trainee – Cognizant (Remote) Jun 2024 – Oct 2024

- Completed intensive CSD (Continuous Skill Development) training covering software development best practices, clean code principles, and Agile methodology.
- Earned HackerRank certifications in Python (Basics) and SQL; applied skills in hands-on coding assessments and exercises.

PROJECTS

Login & Registration App | *Angular 19, REST API, MySQL*

- Built a role-based authentication system (Admin / User) with separate dashboards, reactive form validation, JWT-based session handling, and MSSQL backend.

Weather Dashboard | *JavaScript, HTML/CSS, OpenWeather API*

- Developed a fully responsive, mobile-first web app fetching live weather data via REST API; implemented geolocation and a 5-day forecast view.

PDF to Audio Speech Converter | *Python, PyPDF2, pyttsx3*

- Created a desktop tool that converts any PDF to MP3 audio with page-by-page reading control and export functionality.

TECHNICAL SKILLS

- Frontend: Angular 19, HTML5, CSS3, JavaScript (ES6+), Responsive Design
- Backend: Python (Django basics), REST API development and integration
- Database: SQL, MS SQL Server
- Tools & Workflow: Git, VS Code, Arduino IDE, Agile/Sprint methodology

EDUCATION

B.Tech – Electronics & Communication Engineering 2020 – 2024

Technocrats Institute of Technology, Bhopal | CGPA: 8.69 / 10.0

Higher Secondary (12th, CBSE) & High School (10th, CBSE) *Jawahar Navodaya Vidyalaya, Seoni (M.P.)*

CERTIFICATIONS & LANGUAGES

- Python (Basics) & SQL (Basic) – HackerRank (Verified)
- Yuva AI Certification – Government of India Digital India Initiative
- Languages: Hindi (Native), English (Professional Working Proficiency)
